### Section 4: First Aid Measures

#### 4.1 Description of first aid measures

**Inhalation**
- Move the exposed person to fresh air. If breathing stops, provide artificial respiration.

**Eye Contact**
- Rinse immediately with plenty of water for 15 minutes holding the eyelids open. Seek medical attention.

**Skin Contact**
- Remove all contaminated clothes and footwear immediately unless stuck to skin. Wash off immediately with plenty of soap and water. Seek medical attention if irritation or symptoms persist.

**Ingestion**
- DO NOT INDUCE VOMITING. Never give anything by mouth to an unconscious person. Rinse mouth thoroughly. Seek medical attention.

**General Information**
- If you feel unwell, seek medical advice (show the label where possible).

### Section 5: Firefighting Measures

#### 5.1 Extinguishing media
- Use extinguishing measures that are appropriate to local circumstances and the surrounding environment

#### 5.2 Special hazards arising from substances or mixture
- No data available

#### 5.3 Advice for firefighters
- Wear suitable respiratory equipment when necessary

### Section 6: Accidental Release Measures

#### 6.1 Personal precaution, protective equipment and emergency procedures
- Wear suitable protective clothing. Avoid breathing vapours, mist or gas. Avoid formation of dust. Ensure adequate ventilation of the working area. Evacuate personnel to a safe area.

#### 6.2 Environmental precautions
- If safe to do so, prevent further leakage or spillage. Do not let product enter drains.

#### 6.3 Methods and materials for containments and cleaning up
- Avoid raising dust. Sweep up. Transfer to suitable, labelled containers for disposal.

### Section 7: Handling and Storage

#### 7.1 Precautions for safe handling
- Handle in accordance with good industrial hygiene and safety practice. Never carry a bottle by its top. Avoid formation of dust. Ensure adequate ventilation of the working area.
7.2 Conditions for safe storage including any incompatibilities.

Oxidizers should be stored in a cool, dry and well ventilated area. Separate from acids, alkalies, reducing agents and combustibles. Keep container tightly closed. Keep in properly labeled containers.

General principles of chemical storage: Store the minimum stock levels of hazardous chemicals, always disposing of chemicals that are no longer required. Store large breakable containers, particularly of liquids, below shoulder height. Ensure containers and bottle tops are sealed properly to avoid unnecessary leakage of vapours. Ensure hazard labels are clear and never store in direct sunlight.

Section 8: Exposure controls/ personal protection

8.1 Control parameters
8.1.1 Exposure limit values

8.2 Exposure Controls

<table>
<thead>
<tr>
<th>Engineering Measures</th>
<th>Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the working day. Ensure adequate ventilation of the working area. Ensure quickly accessible eye-wash stations are available.</th>

<tbody>
<tr>
<td>Eye / face protection</td>
<td>Wear appropriate well-fitting protective eyeglasses or chemical safety goggles as described by EN166 (EU Standard)</td>
</tr>
<tr>
<td>Skin / hand protection</td>
<td>Wear appropriate protective gloves and clothing to prevent skin exposure. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove’s outer surface) to avoid skin contact.</td>
</tr>
<tr>
<td>Respiratory protection</td>
<td>Use a EN149 (EU Standard) approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.</td>
</tr>
