### Section 5: Firefighting Measures

#### 5.1 Extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment

#### 5.2 Special hazards arising from substances or mixture

No data available

#### 5.3 Advice for firefighters

Wear suitable respiratory equipment when necessary

### Section 6: Accidental Release Measures

#### 6.1 Personal precaution, protective equipment and emergency procedures

Wear suitable protective clothing. Avoid breathing vapours, mist or gas. Avoid formation of dust. Ensure adequate ventilation of the working area. Evacuate personnel to a safe area.

#### 6.2 Environmental precautions

If safe to do so, prevent further leakage or spillage. Do not let product enter drains.

#### 6.3 Methods and materials for containments and cleaning up

Avoid raising dust. Sweep up. Transfer to suitable, labelled containers for disposal.

### Section 7: Handling and Storage

#### 7.1 Precautions for safe handling

Handle in accordance with good industrial hygiene and safety practice. Never carry a bottle by its top. Avoid formation of dust. Ensure adequate ventilation of the working area.
7.2 Conditions for safe storage including any incompatibilities.

Keep container tightly closed in a cool, dry and well-ventilated area. Keep in properly labeled containers.

General principles of chemical storage: Store the minimum stock levels of hazardous chemicals, always disposing of chemicals that are no longer required. Store large breakable containers, particularly of liquids, below shoulder height. Ensure containers and bottle tops are sealed properly to avoid unnecessary leakage of vapours. Ensure hazard labels are clear and never store in direct sunlight.

Where no specific short-term exposure limit is listed, a figure three times the long-term exposure should be used.

Figures are based upon UK EH40 WEL (Workplace Exposure Limits)

8.2 Exposure Controls

Engineering Measures
Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the working day. Ensure adequate ventilation of the working area. Ensure quickly accessible eye-wash stations are available.

Eye / face protection

Skin / hand protection
Wear appropriate protective gloves and clothing to prevent skin exposure. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact.

Respiratory protection
Use a EN149 (EU Standard) approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.
